Fulfillment of important tasks for the year 2014 and set going of new projects for the year 2015

During November 17-18 of 2014, the directors of the regional wholesale trade bases under the Association, heads of administrations and departments of the association and registered executives from regions have held a meeting with director of the association Z.O.Fayziyev on “Results expected from the fulfillment of this year’s Special Program and the Measures project, also, Special Program and planned Measures for the year 2015, the situation of storing agricultural products for the winter-spring season of 2014-2015”.

During January-November of the present year, the wholesale trade bases under the system have completed certain activities to supply the population with socially important and other food products. However, it was criticized that several wholesale bases have shortcomings in this area, as an analysis shows, and some of them have been very slow to fulfill the Special Program of this year and Complex Measures. To this regard, reports of the directors of the regional wholesale trade bases have been discussed. Taking into account all opinions and discussions, a meeting summary has been adopted this month. The order of the summary includes tasks to be completed by the end of this year and measures taken to ensure their completion.
